## **IQS** Release History

## IQSweb V2 and Higher Release History

Release Dates/Description	Database Version	Program Version
9/30/2010	V2.0.1	V2.0.1
V2 Major Release		
11/24/2010	V2.0.2	V2.0.2
Performance Issue for Large		
Databases Patch		
5/6/2011	V2.0.2	V2.0.3
Comment Data Overwrite		
Patch for V2.0.2 users.		
3/20/2012	V3.0.0	V3.0.0
V3 Major Release		
7/3/2012	V3.0.1	V3.0.1
Security Issue Patch		
3/5/2014	V3.1.1	V3.1.1
Enhancements and bug fixes		
including 310-1 update.		
7/1/2014	V3.1.2	V3.1.2
Minor bug fixes found in		
V3.1.1		
12/22/2015	V4.0.0	V4.0.0
V4 Major Release		
2/27/2017	V4.0.2	4.0.2
V4 Patch addressed Transfer		
Out issue.		
2/13/2018	V5.0.0	V5.0.0
V5 Major Release		
2/27/2020	V6.0.0	V6.0.0
V6 Major Release – IRWIN		
Integration		
6/5/2020	V6.0.1	V6.0.1
V6 Patch addressed minor		
IRWIN integration issues		
8/6/2020	V6.1.0	V6.1.0
V6 Patch addressed IRWIN		
integration issues plus several		
bugs found in V6.		

5/10/2022	V7.0.0	V7.0.0
V7 Major Release – IRWIN		
Integration Issues and other		
high priority fixes.		

## Bug Fixes and Enhancements

The list below represents a summary of items addressed in IQS V7.1.0

Ticket ID Bug Fixes/Enhancement Description  Attachment Folder Merge Together - fixed issue where a user was able to combine two outer most folders into one folder. One folder was then hidden with no visible signs of the other folder. The hidden folder was NOT deleted and its attachments are retained.  Attachment Folders - Added check to not allow a folder to have itself as a parent folder  Refresher Training Identification - the tool tip for expired refresher training now includes the course code of the message indicating the refresher training course that is needed  Deleting a training entry in a person's record - fixed issue where if a training entry was deleted from a person's record in Certifications/Qualifications, it returned an error message that "an error was encountered processing the request" even though the entry was correctly deleted.  Updated Training Nomination Form to use the new NWCG  7152 Training Certificate Template - 2021  Changed URL for Help Link to point to AZURE help rather than locally installed help.  Removed all references to ROSS within application changing them to "IRWIN" or "Integration Service" appropriate.  Separated the IQS Help from the installation allowing the help to be as needed rather than only with scheduled releases.  IRWIN Integration: Added Fitness Expiration Date to data integrated with IRWIN so that this date could be read by IROC or a CAD.  IRWIN Integration: Added Qualification Expiration Date to data integrated with IRWIN so that IROC or a CAD could read this date.  Certificate passphrase with & can trigger ASP.NET validation - removed & character from passphrase creation to prevent possible security violation.  IRWIN  IRWIN  IRWIN			
user was able to combine two outer most folders into one folder. One folder was then hidden with no visible signs of the other folder. The hidden folder was NOT deleted and its attachments are retained.  Attachment Folders - Added check to not allow a folder to have itself as a parent folder  Refresher Training Identification - the tool tip for expired refresher training now includes the course code of the message indicating the refresher training course that is needed  Deleting a training entry in a person's record - fixed issue where if a training entry was deleted from a person's record in Certifications/Qualifications, it returned an error message that "an error was encountered processing the request" even though the entry was correctly deleted.  Updated Training Nomination Form to use the new NWCG Training Certificate Template - 2021  Changed URL for Help Link to point to AZURE help rather than locally installed help.  Removed all references to ROSS within application changing them to "IRWIN" or "Integration Service" appropriate.  Separated the IQS Help from the installation allowing the help to be as needed rather than only with scheduled releases.  IRWIN Integration: Added Fitness Expiration Date to data integrated with IRWIN so that this date could be read by 10223  IROC or a CAD.  IRWIN Integration: Added Qualification Expiration Date to data integrated with IRWIN so that IROC or a CAD could read this date.  Certificate passphrase with & can trigger ASP.NET validation - removed & character from passphrase	Ticket ID	Bug Fixes/Enhancement Description	IQS Module
folder. One folder was then hidden with no visible signs of the other folder. The hidden folder was NOT deleted and its attachments are retained.  Attachments are retained.  Attachment Folders - Added check to not allow a folder to have itself as a parent folder  Refresher Training Identification - the tool tip for expired refresher training now includes the course code of the message indicating the refresher training course that is needed  Deleting a training entry in a person's record - fixed issue where if a training entry was deleted from a person's record in Certifications/Qualifications, it returned an error message that "an error was encountered processing the request" even though the entry was correctly deleted.  Updated Training Nomination Form to use the new NWCG Training Certificate Template - 2021  Changed URL for Help Link to point to AZURE help rather than locally installed help.  Removed all references to ROSS within application changing them to "IRWIN" or "Integration Service" appropriate.  Separated the IQS Help from the installation allowing the help to be as needed rather than only with scheduled releases.  IRWIN Integration: Added Fitness Expiration Date to data integrated with IRWIN so that this date could be read by 10223  IROC or a CAD.  IRWIN Integration: Added Qualification Expiration Date to data integrated with IRWIN so that IROC or a CAD could 10222 read this date.  Certificate passphrase with & can trigger ASP.NET validation - removed & character from passphrase			
the other folder. The hidden folder was NOT deleted and its attachments are retained. 10192 creation to prevent possible security violation. IRWIN			
	10192	creation to prevent possible security violation.	IRWIN

10190	Fixed issue that caused an error when qualification's job code does not exist in IRWIN which stops the entire update qualifications batch processing job	IRWIN
10185	Fixed time-out issue that was reported intermittently when exporting CSV of IRWIN logs	IRWIN
9173	IRWIN Integration: Experience Import - added comment "Imported from IRWIN" for persons experience records that are imported from the IRWIN integration service.	IRWIN
10253	Fixed issue where persons can be quarantined in IRWIN when their records are updated (not just added) in IRWIN on the Person/Org page. IQS needed to capture that the record was quarantined and notify the user.	IRWIN
10254	Fixed issue where on the Person/Org page that a previously integrated person lost the value for the Integration ID section once the Integration checkbox is unchecked. Now the integration ID shows regardless if the person is currently integrated or not.	IRWIN, Person/Org
10224	Data Entry Support - made the permissions group a required field if the user is in the "Data Entry Support" role to address an issue caused by a missing value in the permission group.	Maintain Users
10251	Fixed issue where users logged into the application in the "Post" role could not save a manually entered experience record.	Post Experience
10229	Added data validation to ensure that dashes and spaces cannot be entered for dispatches and providers	Reference Data
8166	New report: Users listing - lists the IQS Users in the database with login name, full name, phone number and email.	Reports
7142	Fixed issue where "Courses Not Taken" and "Courses Completed" reports were listing the same people	Reports
10242	To address identified possible security vulnerabilities: 1) Set the X-FRAME-OPTIONS in the header as SAMEORIGIN. 2) Added the Set-Content-Security-Policy to self to help prevents XSF attacks.	General – security
